

## School visits to our Museum.

Our museum features topics in a programme strongly aligned with the curriculum requirements for year two children.

Using household and commonly used items from the past our programme "The past to the present" allows children to gain an insight into how daily life has changed.

The children will experience manual skills which were once required in the kitchen/laundry, identify the difference in how schooling has changed, discover how lighting has improved our lives (demonstration of the use of candles through to electricity), and with listening and communication shall compare tablets, telephones and morse code.

This programme is very flexible and we will discuss your requirements.

We thank the local schools who have taken part in this programme.

Inquires regarding this programme please email our museum - [info@sandgatemuseum.com.au](mailto:info@sandgatemuseum.com.au) - or phone our museum on 07 3869 2283
